SUBJECT: THREATENED AND ENDANGERED SPECIES AND MIGRATORY BIRD
CLEARANCE FOR OPERABLE UNIT TWO TRENCHING PROJECT
PREPARATION - MBM - 003 - 96

At your request Ecology personnel inspected the work area for the removal of pipe and spill control sheeting in Operable Unit 2. The work area was surveyed for threatened and endangered species and migratory bird concerns. No concerns were identified, and work may proceed as scheduled. Due to the winter season, no repeat surveys will be required at the work site until March. Should the current project be greatly revised, or should a new phase of the project start, new or additional surveys will be required.

Should you have comments or require further information, please call me at extension 3560.
